

THE VOLTONIC PROMISE

We hold true to our values and the tenet that our word is our bond. We actively live this philosophy daily across every aspect of our organization. We are a company based on values and beliefs, crafted into a process that results in the solutions we develop for our customers. Our promise is the ideal through which we hold ourselves accountable to our customers and partners, ensuring satisfaction and excellence through unwavering professionalism and quality leadership. The foundation of our promise of an extraordinary customer experience is anchored in three central principles by which we measure ourselves and reflect on each and every day:

- **GUARANTEE PERFORMANCE**
- **RADICAL COMMITMENT**
- **EXCEPTIONAL COMMUNICATION**

WHAT WE DO

We design, create and bring to reality innovative automation solutions that enable our partners to better serve their clients and customers, thereby differentiating themselves in their market while providing a safer and more effective workplace for their employees. Our product is at its core, a collaborative mosaic of ideas borne out of our hands-on, customer centric process in which our partners and customers play an integral role. While our systems and solutions are the tangible representation of what we offer, we believe that these are simply a component of the greater Voltonic offering; extending well beyond the physical product that we deliver.

CUSTOMER SEGMENTS

 Oil & Gas	 Transportation & Infrastructure	 Public Utilities	 Cement	 Chemicals & Petro Chemicals	 Rails	 Power & Energy
 Printing & Packaging	 Pharmaceuticals & Life Science	 Tunnels	 Water / Wastewater	 Food & Beverages / FMCG	 Fertilizers	 Constructions

OUR NINE UNIQUE DIVISIONS ALLOW US TO PROVIDE INNOVATIVE CROSS-DISCIPLINARY SOLUTIONS EXPERTLY ENCOMPASSING YOUR ENTIRE OPERATIONS.

- ✓ Process Automation & Digital Solutions
- ✓ Industrial Motors & VFDs
- ✓ Field Instrumentation
- ✓ Flow Control Technologies
- ✓ Power Distributions
- ✓ Type Tested Switchgear
- ✓ Lighting Technology
- ✓ Fire & Gas Detection and Process Analyzers
- ✓ Engineering Services

CONTROL PRODUCTS & SOLUTIONS

Process Automation & Digital Solutions

- › DCS System
- › PLC system
- › SCADA system
- › Energy Dashboards
- › Lifecycle Services
- › Project Services
- › Educational Services
- › Consulting Services
- › Warehouse Solutions

Field Instrumentation

- › Flow Measurement
- › Pressure Measurement
- › Temperature Measurement
- › Level Measurement
- › Industrial Wireless
- › Tank Gauging System
- › Liquid Analysis
- › Paperless Recorders
- › HART Communicator

Motors & VFD's

- › Low Voltage VFDs
- › Medium Voltage VFDs
- › Low Voltage Motors
- › Medium Voltage Motors
- › Hazardous Area Motors
- › Synchronous Motors
- › UL / Fire Pump Motors
- › Geared Motors
- › Alternators & Generators

Flow Control Technologies

- › Control Valves
- › Isolation & Shutoff Valves
- › Regulators
- › Actuators
- › Valve Sizing Services
- › Smart Valve Diagnostics
- › Valves Accessories
- › Digital Valve Controllers
- › PRDS

Lighting Technology

- › LED Street Lights
- › LED Flood Lights
- › Emergency Lights
- › High Bay Lights
- › Explosion Proof Light
- › Indoor Fixtures
- › Roadway Fixtures
- › Hazardous Area Lights
- › LED Control Systems

Fire & Gas Detectors and Gas Analyzers,

- › Online Smart NIR Sensors
- › Gas & Flame Detection
- › Process Analyzers
- › Liquid & Gas Analyzers
- › Online Moisture Analyzer
- › Portable Analyzers
- › Lab Equipments
- › Building Technologies
- › Access Control Systems

Power Distribution

- › MV & LV Switchgear
- › MV & LV Motor Control
- › PLC/DCS Panels
- › ATS/GEN Sync Panels
- › Operating Console
- › Portable Power Extension
- › Type Tested Switchgear
- › Cable Management System
- › PLC Training Simulators
- › Power & Lighting DBs
- › Relay Logic Panels
- › Metering Panels
- › Load Takeoff Panels

Engineering Services

- › Electrical Design & Consulting
- › Electrification
- › Instrumentation
- › Plant Services
- › Plant & Machine Automation
- › Power Management System
- › Energy Management System
- › Motors Efficiency Testing
- › E & I Services
- › Earthing Protection System
- › Lightning Protection System
- › Fire Alarm & PA System
- › CCTV & Networking
